

Tri-Care

Supported by a robust network of approximately 20,000 TRICARE behavioral health providers, beneficiaries in the TRICARE West Region can access behavioral health support resources 365 days a year, 7 days a week, 24 hours a day via phone and Internet.

Crisis Line

Service members and their families can call TriWest for assistance with a mental health crisis or with simple requests for behavioral health information by calling **1-866-284-3743**. This line is fully accredited by the American Association of Suicidology (AAS). Licensed mental health clinicians staff the contact center, which also serves as a first line intervention in crisis, providing sound clinical guidance and suicide prevention.

In addition, TriWest offers a toll-free Behavioral Health Appointment Assistance and Provider Locator Service (866-651-4970) Monday-Friday, 8 a.m. until 6 p.m. throughout the West Region to help service members (with proper authorization) and their families locate a provider and schedule appointments.

The Behavioral Health Contact Center offers the following services:

- Crisis intervention
- Eligibility determination
- Benefit information
- Claims assistance
- Authorizations for admissions/services
- Provider location
- Urgent care center location
- MTF medical/psychiatric transfer assistance
- Behavioral health bed locator
- Expedited appeals facilitation

- 24/7 point of contact for case management

They also engage in live online chats (accessible through www.triwest.com/bh) to answer questions about TRICARE behavioral health coverage and Online Care options.

In addition to answering beneficiary questions over the phone, secure Webmail and via live chat, the BHCC also sets appointments with Assistance Counselors (licensed master's or Ph.D.-level) through the TRICARE Assistance Program (TRIAP).

TRICARE Assistance Program (TRIAP)

TRIAP allows easier access to non-medical, short-term assistance services for eligible beneficiaries to connect with a trained Assistance Counselor by Web-based video-conference. No authorizations or referrals are required and beneficiaries can use the program as often as needed, unlike Military One Source. Use of this program also helps to ensure the continuity of care that is not available through Military One Source.

For services that are beyond the scope of TRIAP, beneficiaries have the option of using the Tele-Behavioral Health Care network, which allows a beneficiary access to professional clinical counseling delivered from a remote TRICARE network provider. TriWest's Online Care program information is also available online in Spanish.

Refer to the printable TriWest Online Care [FAQs for Military Partners](#) and [Fact Sheet](#), or visit triwest.comm/onlinecare for more information. Beneficiaries can find TriWest Online Care information at www.triwest.com/bh and at their local TRICARE Service Center, or by calling 1-888-TRIWEST (974-9378).
